

SONGS FOR FAST TRACKS

Both Eyes Open

The hallelujahs, they flow from our lips in one accord
But in the corner sits a couple who barely knows the Lord
As your daily walk through glory grows
Share with those just starting down redemption road

Chorus:

Don't impersonate Jesus without both eyes open
He saw through the cheers to the pain and the tears
You won't love your neighbor without both eyes open
Whether weak or strong, or right or wrong
Keep both eyes open

Inside we humbly share in stain glass luxury
But just outside someone cries from addictive misery
While you test the Savior's finest wine
Share with all the wounded still behind the lines

Repeat Chorus

Jesus could have walked with the famous or the rich
But He was more concerned with giving than getting
The needs of the few were always as heavy
As the needs of the many

Repeat Chorus

Shining Suits

Each silent home in Dothan lay in enemy hands
Elisha prayer his fearful servant would understand
God showed the brilliance of all those invisible
Guarding every heavenly plan

Chorus:

Those men in shining suits, they're standing all around
Some are in the trees, some are lying on the ground
Each one's on fire, just ready to explode
You'll never fight alone
As you walk the narrow road
To the kingdom's throne
Through the angel zone
You'll never be alone

It's hard to walk darkness while on enemy ground
Trusting invisible strength, though you hear dangerous sounds
But never too far away stands a mighty display

Defenders of His heavenly crown

Repeat Chorus:

Bridge:

Angels were created for His service
Slaves to righteous rendezvous, no slacker
As celestial wings take to flight
The demons slowly fall

Repeat Chorus: (twice)

Pain of Love

Offensive anger aimed towards Jesus
But did they know just why
No slightest thought to who it really
Was who came to die
Those people viciously mocked the King
More aroused the more blood ran
Oblivious to the wave that should have
Erupted the Son of man

Chorus:

The cross could have exploded like a firework display
The nails could have shot out to those standing in dismay
And when the dust had settled, with their faces in the sod
As they fear His awesome glory
They're gonna have to call Him God
But Jesus chose a different way
He stayed for the pain of love

I'll never understand the passion that you feel for me
You're always there as I drift on this self-concerning sea
I would have given up long ago on a heart as cold as mine
A trail of broken promises
But You never changed Your mind

Repeat Chorus:

Bridge:

Patient love towards angered souls
It's more than hard to achieve
But God sends rain to the driest field
Like agonizing relief

Repeat Chorus 3 times:

Sandcastles

Everyday seems a year beyond the day that just went by
You start each one with your list in hand,

But the time begins to fly
You run in circles, trying to keep
Mr. Satisfaction alive
But while you feed the momentary,
The lasting stays deprived

You go to work and you go to play,
But your heart's an empty well
You live your life with only you in charge,
But you live it from your cell
You spend a lifetime polishing
Everything that means the most
But the rust will come and devour the dreams
And they'll haunt you like a ghost

Chorus:
Sandcastles, blowing in the wind
The time it takes to build one up, another falls again
It's like sandcastles, beaten by the waves
Whether strong or tall, they're bound to fall
Treasures lie within a change inside

You want the life of the higher class
That your parents never had
Your heart is cold but your hands are warm,
So it doesn't feel so bad
In pursuit of all your neighbor's dreams,
You're reaping what you sow
But you cannot hide those hollow sounds
That echo from your soul

Repeat Chorus:

Instrumental:

Bridge:
There's nothing wrong with having wealth or fame
Though you still are left confused and incomplete
What stands alone is the power of Jesus name
He's the answer to the fundamental needs...
Like love, joy, peace...

Repeat Chorus:

Time for a Celebration

All you heavenly seekers in a world full of pain
God gave us ability to see the sun through the rain
Though the clouds hang over us
Dancin's still the thing to do
Beyond the doubts of dark despair

Jesus' love will shine on through

Chorus:
There's a time for a celebration
There's a place in our hearts that's made to give praise
There's a time for a celebration
Let's delight in the feast, may joy be increased
As we celebrate

People are always exploring for greater lands to roam
The Father's kingdom is standing tall
But they don't see; they don't know
Jesus chose to come to earth to grow into a perfect man
But He also welcomed those guilty nails
So we can be born again

Repeat Chorus:

Bridge:
Keep the focus on Who deserves the praise
For His generous works of love
Nothing stands against His mighty grace
As the world tries to steal your soul
Remember Who is in control

Repeat Chorus: (twice)
